HEE

DESIGN BY HEE WELLING

The philosophy behind the Hee Series was to take an archetypal chair and perfect it down to the last detail while cutting the essentials to the bone. The goal was to create a contemporary chair to fit into a wide range of contexts. The attempt was a great success, resulting in the pragmatic and easily decoded Hee series. Like a line drawing, it wraps metres of metal wire into neat, straight lines in three versions: bar stool, lounge chair and dining chair. Stackable and weatherproof, the wide assortment of colours and designs make Hee suitable for numerous indoor and outdoor contexts, such as bars and restaurants, as well as public spaces and home environments.

13EIGHTY

DESIGN BY SCHOLTEN & BAIJINGS

HAY's 13Eighty chair designed by Dutch designers Scholten & Baijings is aptly named after the number of tiny holes in the moulded polypropylene shell. These perforations create a characteristic aesthetic, where transparency and a play of light and shadows add to the chair's expression, while the variations in the sizes of the holes bring a sense of movement to the visual appearance. They also have a functional use in draining rainwater off when the chairs are used outdoors.

Available in a variety of designs, with or without armrests and stackable. 13Eighty is a versatile chair with possibilities for both indoor and outdoor contexts.

PC PORTABLE

DESIGN BY PIERRE CHARPIN

Pierre Charpin's PC Portable Lamp is a refined and portable freestanding lamp for indoor and outdoor use. Constructed in robust plastic and featuring a matte scratch- and water-resistant finish, its batterypowered design gives the freedom and flexibility to move it anywhere. The light source is hidden from view by a polycarbonate diffuser, available with both downlight and ambient output options, depending on the desired use. The PC Portable Lamps are available in a variety of colour variants and are ideal for table lighting in domestic environments, as well as at cafés, restaurants and other public areas.

NEU TABLE

DESIGN BY HAY

Part of HAY's Neu Collection, the Neu Table features a small round or square table top attached to a tubular central pole and angled 4-star pedestal base. Crafted in outdoor powder coated steel and cast aluminium to offer greater durability and resilience, it has a versatile quality that makes it well-suited to both indoor and outdoor use. Its uncluttered lines give it a sleek, understated expression, making it a popular choice for public spaces such as cafés, offices, as well as private areas such as gardens and balconies.

TERRAZZO TABLE

DESIGN BY DANIEL ENOKSSON

Swedish designer Daniel Enoksson's Terrazzo Table features a round- or square-shaped table top crafted in highly functional electro-galvanized steel and powder coated to make it extra resilient. For the designer, terrazzo was an obvious choice to use as the base, partly due to its excellent durable properties, but more importantly, it has such a unique and distinctive finish that makes an effective contrast against the stark simplicity of the table top. Designed to withstand the outdoor environment, the table is suitable for all kinds of indoor and outdoor use.
