

General Moving & Lifting:

To move or lift:
Pull or lift your Caper chair using the convenient handhold on the back of the chair.

All Caper stacking chairs—with or without arms and with or without casters—are lightweight, weighing eleven pounds or less.

Stacking Chair:

To stack chairs:
Position the top chair so that its legs are in front of the arm supports of the lower chair.

Stacking chairs—with or without arms and with or without casters—stack up to 6-high on the floor and 15-high on a Caper Cart.

Note: If the bottom chair has casters, a stack of up to 6 chairs can be transported without a cart.

Stacking Chair with Tablet Arm:

To stack chairs:
Position the top chair so that its legs are in front of the arm supports of the lower chair.

Stacks 4-high on the floor or on a Caper Cart. Tablet must be fully extended in the upright position prior to stacking.

Warning: Do not sit on tablet. Maximum load to tablet is 16.5 lbs.

Stacking Stool:

To stack stools:
Position the top stool so that its legs are in front of the arm supports of the lower stool.

Stacking stools—with or without arms—stack up to 5-high on the floor.

Multipurpose Chair & Stool:

To adjust seat height:

To raise, take your weight off chair, press button. To lower while seated, press button.

To increase tilt tension:

Turn knob clockwise.

To decrease tilt tension:

Turn knob counterclockwise.

At the proper height, your feet should rest flat on the floor.

Set the tilt tension to control the resistance you feel when reclining.

Multipurpose Stool:

To adjust footring height:

Hold base with one hand, grasp footring spoke and turn counterclockwise (-) to loosen.

Once loose, raise or lower footring to desired height.

Hold collar with one hand, grasp footring and turn clockwise (+) to tighten. To secure, finish turning footring while holding base.
