

frog

Table

Design

The Frog table is an elegant product for the offices, restaurants or in the home. The design of the base pays careful attention to the scale of the material and repetition of bends; the result is a table which is visually light and uncluttered when used in repetition.

Technical

Frog's base is constructed with a cold drawn steel bar to achieve a sharp and smooth finish. This is then finished with a polyester powder coat for a hard wearing finish. Glass tops are connected to the frame with our beautiful, polished aluminium UV bosses. A variety of solid surfaces can be used (see below), some of which are suitable for outdoor use.

*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Frog table designed by IntheDetail

general manufacture description

The frog table is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Frog table 850dia with an oak veneer top.

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

The frog base is supplied as a solid piece. The 4 legs are machine bent from mild steel bar, and the top and base crosses are CNC cut from mild steel. The individual parts are finished with a polyester powder coat for a hard wearing finish.

The table top is CNC cut from oak veneered MDF. The raw MDF edge is polished and finished with a hard wearing spray lacquer.

facts

- naughtone is FISP and ISO14001 certified
- 23kg Total weight
- 62.7% Recyclable (frame & fixings)
- 35.3% Compostable (top)
- 38.2% Recycled content (frame, top and fixings)
- **35.3% Reusable content**
- **100.9% Recycled & Recyclable content**

contents

- Frame (mild steel) - 63.3%
- Top (MDF and oak veneer) - 36.3%
- Fixings (mild steel) - <1%
