

hush low

Sofa

Design

The Hush Low sofa is a proud wider version of the Hush Low chair. Making perfect sense of the distinctive Hush Low profile, the sofa takes on its own elegant characteristic whilst expanding on all the benefits of the Hush Low chair.

Technical

The main body of the Hush Low sofa is constructed with moulded plywood and CMHR foams. Base options are constructed from mild steel and finished with hard wearing polyester powder coat. The wooden base is constructed from turned hardwood and finished with a matt lacquer.

*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Turned Solid Oak or Walnut Legs

Other Options

2 Tone Upholstery

Hush low sofa designed by naughtone

general manufacture description

The Hush low sofa innershell is constructed from 1 solid moulded plywood form. The frame is then covered with CMHR foams and fully upholstered over with fabric. The Hush shell and base is assembled together with dry fixings and the upholstered shell can be easily broken down into separate materials with hand tools.

The Hush low sofa sled base is machine bent from mild steel rod, then weld jointed together and hand polished to a smooth surface. The steel rod is then finished with either chrome plating or polyester powder coat.
