

# megaped

Table

## Design

A simple thing done very well; the naughtone Megaped table is pared down to the minimum soft square shaped base and stem. Megaped caters for the larger table functions without a complex or bulky base (up to 2000mm diameter!). Use the Megaped table wherever you need a product that performs so well you don't even notice it.

## Technical

Megaped is manufactured in mild steel tube and aluminium flat plate and then finished with a hard wearing polyester powder coat. The stem, base and table top are supplied unassembled and bolt together easily with very few fixings. The various table top options have their own unique characteristics and can be fully tailored to suit any requirement.

\*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Mega ped table designed by naughtone

### general manufacture description

The Mega ped table is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Megaped 1200dia with a white MFMDf top

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

The Mega ped base is supplied unassembled in 3 parts for bolt together construction. The base, top plate and stem are manufactured from mild steel. (the stem is a thick walled tube) The surface of the base is finished with a polyester powder coat.

The stem, base and table top are supplied unassembled and bolt together easily with very few fixings.

The table top is made from MFMDf. The raw MDF edge is polished and finished with a hard wearing spray lacquer.

### facts

- naughtone is FISP and ISO14001 certified
