

ped

Table

*Shown in RAL 9006 silver powder coated base finish

Design

A simple thing done very well; the naughtone Ped table is pared down to a beautiful brushed aluminium finish and soft square shaped base. Use the Ped table wherever you need a product that performs so well you don't even notice it.

Technical

Ped is manufactured in mild steel tube flat plate and then finished with a hard wearing polyester powder coat. The stem, base and table top are supplied unassembled and bolt together easily with very few fixings. The various table top options have their own unique characteristics and can be fully tailored to suit any requirement.

*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Ped table designed by naughtone

general manufacture description

The Ped table is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Ped table 850dia with a white MFMDf top

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

The Ped base is supplied unassembled in 3 parts for bolt together construction. The base, top plate and stem are manufactured from solid mild steel. The surface of the base is finished with a polyester powder coat.

The stem, base and table top are supplied unassembled and bolt together easily with very few fixings.

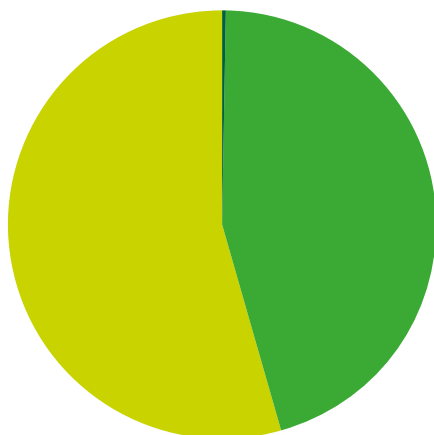

The table top is made from MFMDf. The raw MDF edge is polished and finished with a hard wearing spray lacquer.
