

pinch

Stool

Design

The Pinch stool is one of the originals in the naughtone range and a truly versatile product.

The fully upholstered form of the Pinch stool offers a comfortable seat, whether used at a table or mingled with soft seating. It can be sat on or straddled and the Pinch stool has no obvious direction so lends itself to being scattered in a space. Use the Pinch stool as functional occasional seating and to add life to any interior space.

Technical

The Pinch stool is structured with a simple, robust wooden frame, a thin multi density foam then the upholstered cover. It has small plastic glides to protect flooring and the upholstery of the stool.

Pinch stool designed by naughtone

general manufacture description

The pinch stool is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Pinch stool

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

Pinch's inner frame is constructed with cut hardwood planks and sheet material timber. CMHR foam is applied to the frame and is then fully upholstered. The pinch is supplied in a single piece and has no fixings.
