

# pollen

Stool and Table

## Design

The hexagon is a natural repeating shape which can be used in either small clusters, straight lines, around bends or tucked into corners. This makes Pollen a truly dynamic seating and table system for any corporate, public or educational space. The tables and seats use the same base options making pollen a simple choice with a sophisticated application.

## Technical

Pollen's seat is constructed with a thick plywood base and CMHR foams. The cover can be chosen by the customer or recommended by naughtone. The wire base is made from mild steel and finished in chrome or polyester powder coat.

selection

Pollen stool designed by David Fox

### general manufacture description

The Pollen stool is constructed with an MDF base which is then layered with CMHR foam before being upholstered.

The Pollen wire base is machine bent from mild steel rod which is weld jointed together and polished by hand to a smooth surface. The base is then finished with either chrome plating or polyester powder coat. The seat and frame are assembled together by hand using minimal fixings and can be easily disassembled if necessary.

### facts

- naughtone is FISP and ISO14001 certified
- 10.9kg Total weight
- 65.9% Recyclable (wire frame, foam, fixings & feet)
- 28.2% Compostable (internal timber frame)
- 36.4% Recycled content (wire frame, chip foam, fixings & top)
- 28.2% Reusable content
- 102.3% Recycled & Recyclable content

Pollen table designed by David Fox

### general manufacture description

The Pollen table is available in a range of finishes, for the purpose of this document we have a specific example from the range:

Pollen table with a MFMDf top

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

The Pollen wire base is machine bent from mild steel rod which is weld jointed together and polished by hand to a smooth surface. The base is then finished with either chrome plating or polyester powder coat.

The table top is made from MFMDf. The raw MDF edge is polished and finished with a hard wearing spray lacquer. The top and frame are assembled together by hand using minimal fixings and can be easily disassembled if necessary.

### facts

- naughtone is FISP and ISO14001 certified
- 8.9kg Total weight
- 48.5% Recyclable (frame, fixings & feet)
- 51.5% Compostable (top)
- 42.5% Recycled content (frame, fixings & top)
- **51.5% Reusable content**
- **91% Recycled & Recyclable content**

### contents

- Top (MFMDf) - 51.5%
- Wire frame (mild steel) - 48.2%
- Feet (polypropylene) - <1%
- Fixings (mild steel) - <1%
