

# sideboard

Storage

## Design

The naughtone Sideboard is designed for practical accessible storage and avoids detail where possible to allow it to feel like part of the building rather than draw attention to itself.

In contrast the Sideboard holds colour very well and can be a great way to add colour or accent to an interior.

## Technical

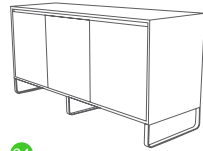

Sideboard is carefully constructed by hand from MDF and quality mechanical components. The MDF can be finished with a silk spray lacquer in various colours or Walnut and Oak veneers. The mild steel sled bases are finished with a hard wearing polyester powder coat or as a premium option in brushed stainless steel.

\*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

Sideboard designed by naughtone

### general manufacture description

The Sideboard is available in a range of sizes and finishes, for the purpose of this document we have a specific example from the range:

Sideboard 2000 with a sled base

Please use the material index and the breakdown of component mass below to establish the environmental qualities of other finish options in this range.

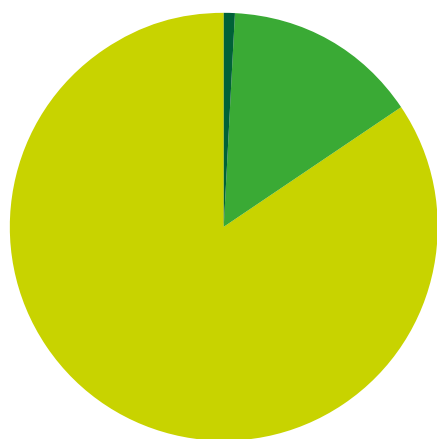

Sideboard is carefully constructed by hand from MDF and quality soft close components. The entire unit is then finished with a semi matt finish spray lacquer.

The sled base is handmade from cold drawn mild steel bar before being weld jointed together and brush polished by hand.

### facts

- naughtone is FISP and ISO14001 certified
- 74.7kg Total weight
- 15% Recyclable (base & fixings)
- 85% Compostable (carcass)
