Framery 2Q

Double your efficiency

Framery's new model, 2Q is designed for 4-6 people. It's the best place to co-create, brainstorm and have great meetings. Framery's superior sound insulation system guarantees that your meetings won't disturb the office – and the office noise won't disturb you. 2Q comes with two different layouts. A conference table with two height options is optimal for laptop use or workshopping. You can also choose this meeting pod without any furniture, leaving you the option to furnish it however you wish. A low doorstep makes 2Q wheelchair accessible.

framery
