

LOTTUS LOUNGE HIGH

enea

BY Lievore Alther Molina

The Lottus Lounge High is generously sized armchair with a high backrest which turns it into an even more comfortable seat, as well as being a new solution for equipping rest areas for communal installations: waiting areas, hotel foyers, reading rooms, office reception areas as well as for home use. It's an excellent solution for those spaces looking for elegant and comfortable proposals. The Lottus Lounge High Ottoman, with the same lines as the Lottus chair and with a base with 4 aluminium legs, has been developed as an accessory to be used with the chair as a footrest.

Structures

- Birch or oak plywood shell, high frequency press formed, with E-1 adhesive.
- Round 14x2mm tube in cold laminated steel.
- Semiautomatic arc robot welding with gas controlled steel strip.
- Table legs in birch or oak veneer. Mechanical joints with screw/nut solution.
- Base with 4 polished aluminium or lacquered supports, with non-slip tips.

Finishes

- Steel structure lacquered or chromed, polished aluminium base and structure in wood (with arms in polished aluminium or lacquered).
- Shell in 2D wood or upholstery.
- Seat in upholstery.
