# about us

At naughtone we like to keep things easy; Useful, Beautiful Furniture quite simply explains what we do. Even our name naughtone means no-nonsense.

naughtone is a British company founded in 2005 by industry professionals. We like to consider ourselves friendly experts and we strive to make the process of selecting, purchasing and receiving our products as easy and informative as possible.

Although naughtone is based in Britain our products are available globally. We design and develop in the UK and our manufacturing strategy supports consistent lead times, pricing and environmental factors in our international markets.

We have our own showrooms in the UK and North America and our products can be seen in furniture dealer showrooms all over the world.

naughtone furniture is used by some of the most influential brands in commerce and culture; there is no better proof of the relevance and application of the product range. We have built this useful collection of products by reacting quickly to market demands with as straightforward solution as possible.

In 2019, naughtone was honoured with a prestigious Queen's Award for Enterprise in International Trade, after expanding rapidly to accommodate international growth. The Queen's Awards for Enterprise recognise and celebrate business excellence across the UK.

naughtone was also placed number 1 in The Sunday Times SME Export Track 100 for 2017, named as The Telegraph's Fastest Growing British Export SME 2018, placed number 22 in The Sunday Times Lloyds SME Export Track 100 for 2018 and placed number 81 in the Sunday Times Virgin Atlantic Fast Track 100 for 2018.

To view our full range of products visit [www.naughtone.com](http://www.naughtone.com)

## Environment

naughtone has always considered the environment throughout our design and manufacturing process. We understand that as we continue to grow, so does our potential impact on our surroundings. As most of our raw materials are simple, we have great control over their sources, and are proud to be able to offer FSC® certified upholstered products and use recycled metals in our table ranges.

The addition of our North American manufacturing provision also helps to keep manufacturing miles to a minimum, as our market continues to grow in the USA. Finally, naughtone offers a 'bring back' programme, where the client is able to return the product to our factory, where we will be happy to breakdown and recycle the parts for you.

For more information please contact your sales representative or visit

[www.naughtone.com/green-credentials](http://www.naughtone.com/green-credentials)

We have a comprehensive range of downloadable product brochures for every naughtone product. These have been designed to document all the relevant product information in one easy to use extended product brochure. These cover all frequently asked questions and are handy when specifying a project.

Every product range now has a dedicated extended brochure that is available for download from the product pages on the website and through the resources area.

### 1 Design

Every aspect of the naughtone product ranges has been designed with the environment considered, from ethical material choice and production efficacy to storage efficiency and ease of disassembly.

Dense foam sets and resilient fabrics are selected for their longevity and effectiveness across sectors. Durable high quality finishes such as powder coated bases in a range of colours allow clients the freedom of finish options. Finish samples are available allowing clients to make informed decisions and retain to add to their finish libraries for future reference.

### 2 Raw Material

Local supply of raw materials is employed for the production of our products when possible, procured from suppliers that are quality inspected for extraction methods and meet the highest environmental standards.

### 3 Production

As many of our products are assembled by hand the energy expenditure wasted from machinery during the production process is kept to a minimum.

All fabrics are cut to ensure optimum efficiency with fabric usage and reduced waste consumption per unit.

All production sites have recycling facilities for any excess product that cannot be used elsewhere, which is then managed by a professional third party.

### 4 Distribution

Distribution of naughtone products generally occurs directly between the manufacturing site to the client. Production is localised when possible to the US or UK regions, reducing the carbon footprint and miles travelled for each product.

Many items are flat packed for delivery or shipped disassembled with efficient, minimised packaging; optimizing the transportation vessel space.

### 5 Usage

naughtone products do not require energy or water to function, thus no environmental exchange takes place and no waste is generated during the life of the product.

The only foreseeable need is the cleaning of the product for general maintenance. This includes regular vacuuming to remove dirt and dust particles on upholstery items, and using a dry or damp cloth to wipe non-upholstery items.

This is recommended for all products utilised under conditions of normal wear and is expected to have negligible environmental impacts.

### 6 End of Life

Although our products are durable and demonstrate timeless design, naughtone products are manufactured in such a way that they can be easily disassembled at the end of life and most of the componentry can be either recycled or re-used as applicable.

As a company we are also happy to accept the return of products, to help re-home or recycle furniture or components at the end of the products useful life.

Chair / Barstool

## About Polly

Polly takes its name from the material of which the comfortable and ergonomic seat shell is made; polypropylene. Providing very little visual detail as possible, Polly has subtle edge details, a soft texture and just the right amount of flex, all combined to provide a tactile and satisfying sitting experience.

Polly stacks neatly on the ground and on a designated stacking trolley.

## Compliance

Modular Seating

## About Rhyme

Rhyme is a modular seating system that transforms the landscape within an atrium, creating ad-hoc zones or being used as an island, making it a striking choice for educational spaces, shopping centres or large public areas. Each of the five pieces within the range are fully upholstered, with the same trapezoid footprint to allow for easy planning.

## Compliance

- SCS Indoor Advantage™ Gold Certificate
- naughtone is FSC® certified
- naughtone is FISP and ISO14001 certified
- Our seating is designed to meet or exceed all EN performance requirements per BS EN 16139:2013
- Health Product Declaration (HPD) reports available

## Sizes

All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch

## Plinth Finishes

Black / White Powder Coated Plinth Standard

RAL Powder Coated Plinth naughtone Colours

Plinth Infill Panel to match Plinth colour

Issue 5.0

This brochure is thanks to the hard work of our clients and customers. Without their fresh approach to interiors we would not have had cause to develop exciting new products.

Also, thanks to the naughtone team for all their hard work and all of our friends who have contributed toward the content in this brochure.
